Tijan's Fishing Wish!

Tijan is a 17 year old from Pembroke who suffers from duchenne muscular dystrophy. As one can see from this picture, Tijan's illness does not stop him from being an avid outdoorsman. He truly enjoys camping, the outdoors and mainly fishing.

It's not surprising that his wish was to go to "Lake of the Woods" (ON) for a week of fishing with his father, grandfather and uncle. For Tijan, this experience was a dream come true: "My wish will allow me to enjoy a great experience with my favorite people." All three men have been inspirations in Tijan's life. They have transmitted their love and respect of nature and given Tijan the strength and confidence he needs to pursue his objectives and dreams despite the odds.

Thanks to the Make-A-Wish Foundation and local supporters, Tijan's wish came true in July of 2009. Tijan and his family were able to enjoy a week of the great outdoors at the "Totem Resort" on Lake of the Woods, a world class wheel chair accessible fishing/hunting resort.
